TITLE OF THE INVENTION

Page 1, after the title, please insert the following heading:

BACKGROUND OF THE INVENTION

Field of the Invention

Page 1, at line 7, please insert the following heading:

Description of the Background

Please amend the paragraph of page 2, lines 15-24 as follows:

-- Composite panes are also known in which a further thermoplastic film, generally composed of PET (~~polyethyleneteraphthalate~~ polyethyleneterphthalate) is laminated in between two adhesive films in order to increase the thermal insulation, and is itself provided with a coating (which contains metal) which reflects infrared waves. A film composed of a PET-PMMA co-extrudate or co-laminate can also be used without any metal components for the same function (known by the product name 3M[®] SRF "solar reflecting film"). --
